ABOUT US

With over 30 years of experience in safety and security, our founders sought to establish stronger protection services and greater awareness throughout the East African region. Our founding Directors are a combination of Tanzanian & UK nationals who have owned companies in the United Kingdom, & adopted ways of doing business in a way that is focused on the client.

Benefitting from the vast experience of doing business in Europe through a consultative process, we believe that the adoption of a similar strategy will provide greater value to our clients in Tanzania. We have a unique process for understanding your needs and will provide solutions to suit your requirements at competitive prices without sacrificing quality. Having established a strong understanding of the Tanzanian market in our fields, we are confident that we are able to offer a higher standard of service and quality levels, never before seen in the region.

SAFETY WEAR

HEAD PROTECTION

Head protection is required in nearly all industries where there is a risk of injury from falling objects or when working in areas with confined headspace. Safety and Security Centre is the exclusive distributor of the globally renowned manufacturers with a wide selection of helmets from leading brands such as Safe Step, JSP, MSA, UVEX, and Portwest. Our helmets are designed to meet or exceed the requirements of EN397, the industrial helmet standard, and we also stock helmets certified to other standards such as EN12492, ensuring there are options to suit all budgets. We provide industry-specific helmets for sectors like mining, electrical work, high-temperature environments, working at height, forestry, and confined spaces. For those who do not require helmets certified to the highest international standards, we also offer cost-effective head protection solutions, ensuring safety without compromising on quality.

Our Brands: **uvex** **MSA** **JSP** **SAFE STEP** **PORTWEST**
The Safety Company OXFORD, ENGLAND

EYE | FACE PROTECTION

Eye protection is an advantage, but mandatory in many areas as eye injuries can translate into pain, loss of time, money and potentially eyesight. In many day to day tasks and in almost all work environments, flying objects are generated. From wood and paint chips to dirt, concrete particles and even nails, a worker's eyes are constantly and most often at risk from impact hazards. Certified to EN 166, European standards as well as ANSI standards, we offer protection that can stop objects flying at speed (of up to 450 miles per hour) from entering the eye and face. Our eye and face protection are available in both clear and tinted material.

Our Brands: **uvex**  **3M**  **bolle**

HEARING PROTECTION

The ear is a very delicate part of the body and is prone to non-recoverable damage if exposed to some of the noises that occur at the workplace. Taking this into consideration, Safety & Security Centre has made it a priority to offer the full range of hearing protection available in the market.

- Disposable ear plugs
- Reusable ear plugs
- Corded ear plugs
- Ear defenders
- Helmet mounted ear defenders
- Detectable ear protection

Our Brands: **uvex** **3M** **Vaultex**

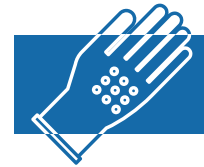

RESPIRATORY PROTECTION

Unlike head or foot injuries, respiratory injuries are not readily apparent. It is therefore very important that everything that can expose the staff to risk, should be protected with adequate Respiratory Protective Equipment (RPE) – from simple dust masks to full face respiratory equipment, we have a range of disposable, as well as reusable respiratory protection to ensure prevention of such life altering diseases.

Our Brands: **uvex** **3M** **JSP** **Honeywell** **DELTA PLUS**

HAND PROTECTION

Hands are one of the most vulnerable parts of the body in any workplace, constantly exposed to various hazards that can lead to serious injuries. That's why it's essential to provide the right Hand Protection Equipment (HPE) to safeguard against cuts, burns, chemical exposure, and more. From simple disposable gloves to advanced cut-resistant materials, we offer a comprehensive range of hand protection solutions to ensure your hands stay safe, allowing you to work confidently and efficiently.

Our Brands: **uvex** **Ansell** **SAFE STEP** **HexArmor**

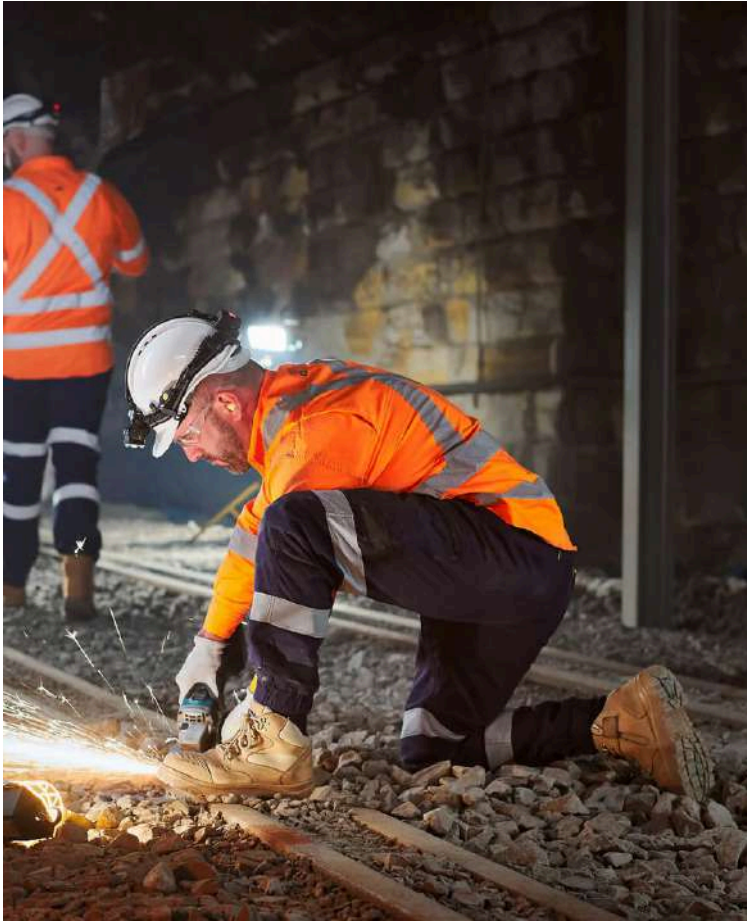

BODY PROTECTION

Safety and Security Centre offers a range of high quality protective overalls and high visibility clothing that offer breathable comfort and durability you can rely on. We offer a range of body protection that starts from our value range and goes up to our higher specification items which include Fire-Resistant Certified Overwear, Aluminum Suits, Disposable Chemical Coveralls, and other specialist items

Our Brands: **uvex** **Bisley** **BULLDOG** **DUPONT** **Tyvek** **DUPONT Tychem** **SAFE STEP**

HIGH VISIBILITY

In environments where visibility is crucial, ensuring that staff can be easily seen is a top priority. High Visibility (Hi-Vis) clothing plays a vital role in preventing accidents, especially in low-light or high-risk areas. We offer a wide range of Hi-Vis apparel, from vests to full suits, designed to keep your team visible and safe, no matter the conditions. With reflective materials and bright colors, our high visibility gear ensures that your staff remains easily identifiable, reducing the risk of accidents and enhancing overall safety.

Our Brands:    

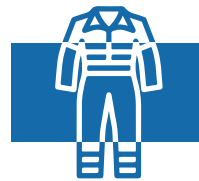

CUSTOMIZATION AND BRANDING

Now, corporates can count on us to personalize safety wear according to their requirements. With the options of screen printing and embroidery, your employees can wear your company's name with pride.

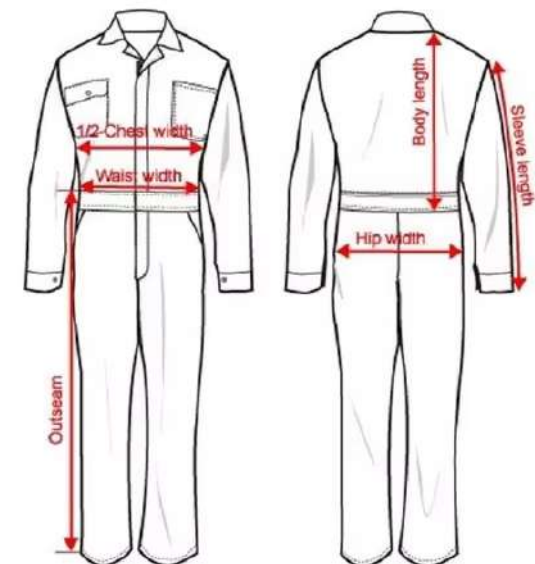

- Helmets
- Shirts
- Coveralls
- Uniforms
- Reflectors
- And much more.

CUSTOM TAILORED WORKWEAR

When you need something a little more customised, Safety and Security is able to tailor a workwear garment specifically to your requirements, with your choice of cloth and design. Simply ask for a design form to generate a quotation.

FOOT PROTECTION

Slips, trips and falls are an ever present hazard within most workplaces and safety footwear can play its part in preventing injury, particularly from slips. By featuring slip/acid resistant soles and steel fixtures within the shoe, SAS offers a full range of certified safety shoes from S1P – S5 approved to EN ISO 20345. One of the major challenges for Safety Managers in Tanzania is ensuring durable foot protection for workers. Opting for cheaper options often leads to higher costs in the long run, as sacrificing quality for price results in frequent replacements and compromised safety. With a stock of more than 4000 pairs of foot protection at a time, our shoes feature toe protection, as well as sole protection.

Our Brands: **uvex** **SAFE STEP** **JONSSON WORKWEAR** **BOVA** **THE ICON OF SAFETY** **HECKEL** PERFORMANCE WITH STYLE

FALL PROTECTION

'Working at height' means to work in any place where, if there were no precautions in place, a person could fall a distance liable to cause personal injury. Safety and Security Centre is proud to offer an exceptional range of fall protection equipment, designed with precision and care. Our selection includes premium harnesses, lanyards, restraint systems, lifelines, retractable fall limiters, rescue gear, complete specialist kits, and accessories. Every product in our collection is thoughtfully crafted to ensure the highest standards of safety and reliability from start to finish.

Our Brands:   

"Fixed Line Systems are an essential safety measure in environments where consistent fall protection is required. These systems provide a secure, continuous connection for workers at height, ensuring freedom of movement while maintaining safety. Whether on rooftops, scaffolding, or elevated platforms, our fixed line systems are designed to meet the highest standards, providing reliable protection against falls. With easy-to-use components and durable construction, our systems offer peace of mind, ensuring that workers can focus on their tasks without compromising on safety.

Our Brands: **KAYA SAFETY** **KARAM** **SAFE STEP**

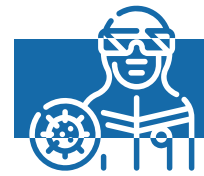

ROAD
SAFETY

With traffic levels continuing to increase rapidly, the need to safely segregate traffic flows from essential work on the roads is vital. We are major stockists of a comprehensive range of road safety equipment.

- Road Traffic Cones
- Caution Tape
- Speed bumps
- Beacon lights
- Light batons
- Torches
- Traffic barriers
- Alcohol Breathalysers
- Road Demarcation
- Fencing and Posts

Our Brands:  

WORKPLACE SAFETY

With alarming statistics of casualties at the workplace, equipping work places with appropriate response tools is crucial. Steps to ensure safety at the workplace can include adequate signage about safety and making sure that employees are well trained. Prioritizing equipment that prevents injuries and minimizes damage is essential.

Our Brands:  SAFE STEP

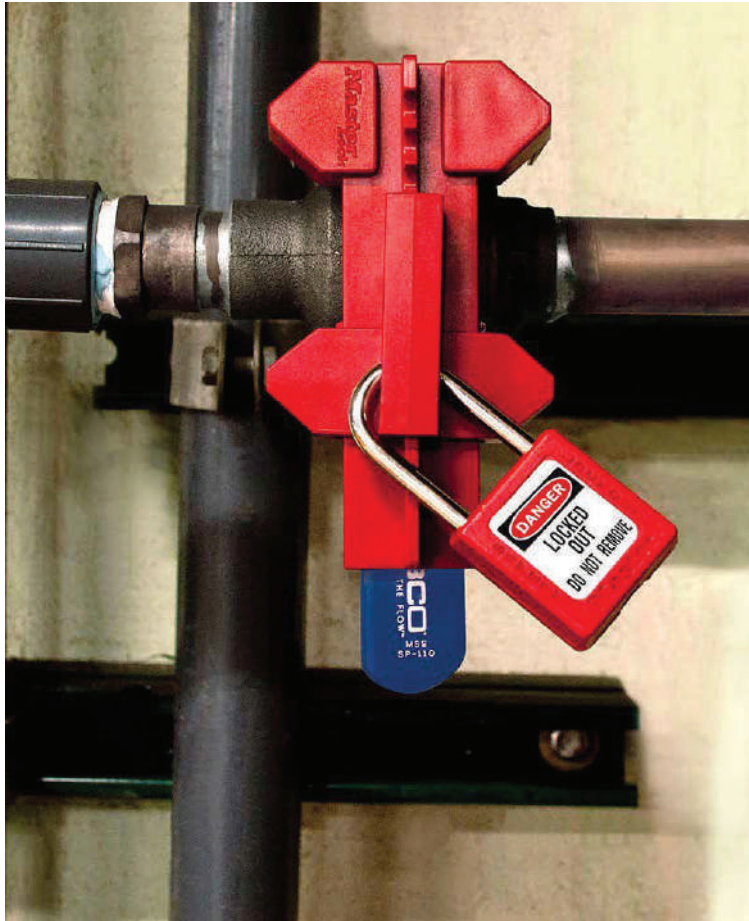

DETECTION SYSTEMS

Detection systems are crucial for maintaining safety and compliance, especially where hazardous gases or alcohol consumption pose serious risks. Our advanced detection systems include precise alcohol breathalyzers to ensure that staff remain within legal limits and are fit for duty, as well as gas detection solutions that continuously monitor the environment for harmful gases. To ensure ongoing accuracy and reliability, we also offer **COMPREHENSIVE CALIBRATION SERVICES**, ensuring that your equipment remains in peak condition and continues to deliver the critical protection your workforce needs.

Safety & Security is the only service centre within Tanzania who can service Lion Laboratories UK breathalyser units.

Our Brands:

LOCK-OUT TAG-OUT SYSTEMS

Isolating hazardous sources through LOTO procedures is one of the most effective ways to minimize casualties at the workplace. This is a safety procedure that is used in industry and research settings to ensure that dangerous machines are properly shut off and cannot be started up again prior to the completion of maintenance or repair work. SAS specializes in consultancy for LOTO systems, as well as the provision of LOTO equipment for hazardous equipment.

Our Brands: **Master Lock.**

Safety signs are crucial in any work environment. The primary importance of displaying safety signs is to prevent injury and ensure staff and visitors are well aware of the possible dangers and hazards ahead in certain situations and/or environments. Safety and Security offers both design and print services for bespoke safety signs.

Our Brands: **3M**

FIRE EXTINGUISHER SOLUTIONS

Protect your workplace with our comprehensive fire extinguisher solutions. Designed to handle various fire types, our extinguishers ensure quick and effective response in emergencies. From installation to regular maintenance, we provide everything you need to stay compliant and prepared. Trust our reliable fire extinguisher solutions to safeguard your people and property, giving you peace of mind in any situation.

Types of fire extinguishers available are:

- Foam
- Carbon Dioxide
- Dry Powder

Our Brands:

PHYSICAL SECURITY

Famed for being the best lock in the world, Mul-T-Lock will ensure security and peace of mind, as well as access control. With over 20 years experience in providing the Mul-T-Lock solution, SAS can serve you through our in-house service workshops and authorized service center; providing a considerable variety of services including key cutting services, pinning services, combination changes and maintenance servicing.

We also provide a variety of services including, but not limited to:

- Key cutting services
- Pinning services
- Combination changes
- Maintenance servicing

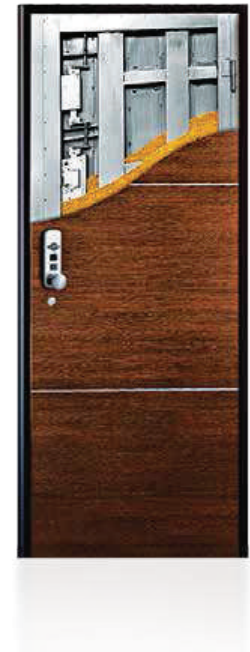

Our Brands:  **MUL-T-LOCK®**

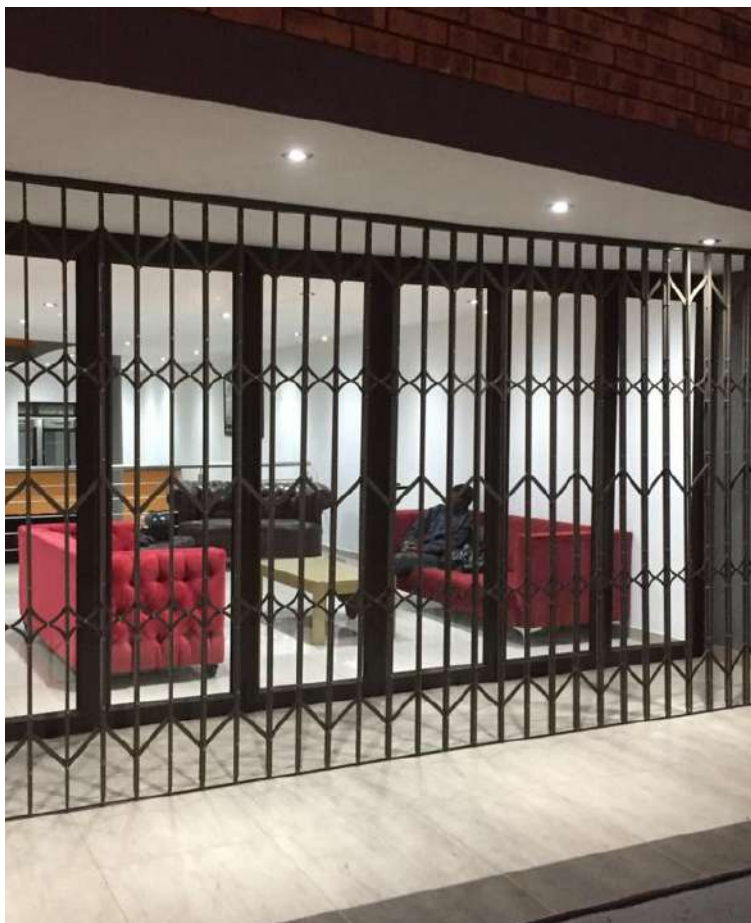

Security doors are essential for protecting against unauthorized access and potential threats. We offer durable, customizable options for various settings, with advanced locking mechanisms and integration with access control systems to ensure your premises remain secure at all times.

Our Brands: **ASSA ABLOY**

Security gates and grilles are unique in that they offer security without sacrificing light and aesthetics. The appeal of collapsible grilles is that they slide away and blend into the interior. Maxidor is a South African manufacturer of high security grille products. Using state-of-the-art technology, we are able to offer customized solutions to suit your specific requirements and provide uncompromising security.

Our range of security barriers include:

- Fixed window and door grilles
- Retractable grilles
- Burglar bars
- Security Fencing
- Roller shutters

Our Brands:  **Maxidor**

FIRE DOORS

Fire-rated doors and frames are our key to safety when a fire breaks out. Creating a physical barrier against the force of fire, our Italian fire doors, made of steel and filled with a fire-retardant core can slow down a fire's speed. Tested in laboratories in Europe, our doors come in standards of 30mins, 60mins, 90mins and 120mins; speak to a representative for more information.

SAFES & CABINETS

Storing your valuables in a "safe" place has never been easier with our range of domestic and commercial safes. Whether you require a small safe for your home, or a heavy duty safe for the office, we have the right solution for you.

Our Brands:  

LOCKS & HANDLES

Safety and Security offer architectural ironmongery and locking solutions for both residential and commercial buildings. We offer a range of products from world-renowned brands, including traditional key and lock systems, to completely key-less solutions.

Our Brands:    

CASH TRAY & TELLER WINDOWS

The exchange of cash at high turnover locations creates a sensitive environment. The teller window is the point in a security system where we balance the need to lock down security with the need for open communication. Talk to us today for an in-depth consultation.

All our seals are sequentially serialized for enhanced security and traceability. These seals are designed to safeguard your goods, prevent tampering, and provide clear evidence of unauthorized access, ensuring peace of mind throughout transit and storage.

Our range of security seals includes:

- Pull-through Plastic Container Seals
- Mul-T-Lock Container Locks
- Tamper-proof Label Seals
- Aluminium Cable Seals
- Bolt Seals

ELECTRONIC SECURITY

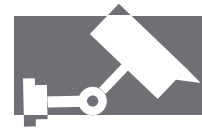

ACCESS CONTROL & TIME AND ATTENDANCE

Providing access to users is often difficult when looking to secure an entrance at the same time. We at the Safety & Security Centre offer many solutions ranging from key cards to fingerprint access. Our solutions specialize in allowing secure access to only those who have been authorized, thus keeping you in full control. Additionally, time and attendance machines allow the logging of persons entering the premises and the maintenance of an audit trail, to ease payroll and HR Policies.

Our Brands: **HIKVISION** **ZKTECO** **MATRIX** **suprema**
TELECOM | SECURITY BIOMETRICS & SECURITY

VIDEO SURVEILLANCE

CCTV surveillance is constantly evolving. Therefore we feel it is essential to specify state-of-the-art technology for our clients, complemented with professional installation, dedicated support and maintenance contracts. With so many options available, it can often be confusing to choose the right CCTV camera. Our extensive experience in the field allows us to tailor-make solutions for our clients and specify the right product for them.

Our Brands: **HIKVISION** **dahua** **BOSCH** **AXIS**

INTRUDER ALARMS

An intruder alarm system monitors and detects unauthorized entry to properties - homes and businesses alike - and alert the property owner or authorized third parties to an intrusion. An alarm system gives property owners the peace of mind they desire to protect their homes, families, businesses and assets. Speak to a consultant to find out more.

Our Brands: **Texecom** **iDS**
INTELLIGENT DIGITAL SECURITY

GATE AUTOMATION

Eliminate the chance for human error with our gate automation systems. Allow access with the click of a button, and ensure security and ease of use. Our solutions help you to control the access of people and vehicles into and out of residential, commercial and industrial properties.

Our Brands:  **CENTURION** **FAAC** **BENINCA**
TECHNOLOGY TO OPEN

TRAFFIC BARRIER

Automated traffic barriers allow the controlled movement of vehicles through a defined space with just the press of a button. Our traffic barriers come in different shapes, sizes and capacities.

These include:

- Bollard systems
- Boom gates
- Parking systems
- Traffic spikes

Our Brands:  **FAAC**

FIRE DETECTION AND SUPPRESSION SYSTEMS

Fire detection systems can significantly reduce property damage, personal injuries, and even loss of life. Our experienced technicians are trained in specifying, as well as installing, fire detection and suppression systems for domestic and commercial installations.

Our Brands: **tyco** **zeta** **Fike**

VEHICLE TRACKING SYSTEM

Eliminate the need for guessing, and know exactly where your fleet is and why. Our fleet management and GPS tracking systems, combined with dash cam cameras, provide real-time visibility and accountability, improving efficiency and driver behavior while delivering significant cost savings. Our European GPS technology, paired with reliable dash cam footage, ensures our systems are valuable additions to your enterprise, enhancing both safety and performance.

SCREENING/DETECTION SYSTEM

From metal detectors to screening systems, we offer a wide range of products to suit your safety and security needs. Compliant with worldwide regulatory requirements, our products prevent theft and perform routine entry and exit screening and detection.

Our Brands:

Rapiscan
systems

OUR SERVICES

THE SAS SURVEY

We follow a consultation approach wherein we carefully understand and analyze the safety and security requirements of your domestic or commercial spaces. Then, we recommend solutions that are best suited to your needs which help minimizing threats and optimize cost.

POST-PURCHASE SERVICE

Over time, we have earned the trust of all our clients by making sure that they do not face any challenges after they make a purchase with us. We provide in-depth product training and induction to our buyers, and conduct quarterly checks for the installed products. For us, the safety of our client comes first.

THE SAFETY & SECURITY ADVANTAGE

We boast of a very helpful and friendly staff that is well-trained in the UK. With a dedicated sales person for each customer, we become the one-stop solution for any safety and security problem. With a wide range of products to offer, we take pride in the fact that all of them are OSHA Approved.
